STEPS ON THE WAY TO OBTAINING A CONDITIONAL USE PERMIT FOR A PERSONAL WIRELESS SERVICE FACILITY

**Step 1 - Discussion**
Discuss your development plans with a planner from the Community Development Department. If your property is located in a Redevelopment Project area, discuss your plans with the Community Redevelopment Agency also. Consider all practical alternatives before deciding to seek Planning Commission action. Obtain all necessary forms from the Planner.

**Step 2 - Application**
Complete all applicable forms and prepare/have prepared all required plans (i.e. site plan, floor plan and architectural drawings). Submit these materials to the Planner for review. Please note that applications are to be submitted by appointment only. If you have a complete application package, you will be instructed to pay the required fee(s) to the Treasurer’s Office.

**Step 3 - Design Review**
Depending on the location of your property and the complexity of your development, the Planner will inform you if Architectural Review and/or Environmental Review is necessary. A meeting of the Architectural Review Board and the Environmental Review Committee will be scheduled, as necessary, within four (4) weeks of your application.

**Step 4 - Hearing**
The Planning Commission will hold a public hearing to consider your request within twelve (12) weeks. You will be notified and requested to appear. The Commission meets on the second Wednesday of every month.

**Step 5 - Appeal**
There is a 14 day appeal period after the adoption of the resolution which certifies the action taken on the project, during which time any interested party may appeal the decision of the Commission to the City Council. If no appeal is filed, Conditional Use Permits take effect on the fifteenth day.
