The City of Compton has launched a transit-oriented development (TOD) specific plan for the Artesia Blue Line Station. In collaboration with the community and other stakeholders, the specific plan, entitled “Compton Hub City”, is creating a vision for future development and other public improvements within the Artesia Station Area.

Compton Hub City invites the public to a community meeting that will review multiple development scenarios that were designed from the community values that emerged from all of the public input to date (Vision Workshop, Mobility/Open Space Workshop, stakeholder meetings, etc.). Participants will explore and discuss their preferred development scenario that will frame future growth and regeneration around a new, re-imagined Artesia Station.

Join us for a public meeting led by the City of Compton and their consultant team. Your input will assist the City in its preparation of a specific plan that is responsive to the needs of the community and enhances access, opportunity and livability for all.

For more information or if you have questions, please contact Robert Delgadillo at 310-605-5532 or rdelgadillo@comptoncity.org.
